SUMMARY

Web Application Developer with 1+ year of production experience building and shipping full-stack web and Android applications using **React, JavaScript, Node.js, Express.js, and Kotlin**. Reduced API response time by 30% through caching and optimisation strategies, improved Lighthouse performance scores by 20%, and maintained 99% uptime on apps serving 1,000+ daily users. Delivered 15+ end-to-end projects; solved 100+ LeetCode problems in Java. Seeking a **Web Developer / Full-Stack Developer** role to build scalable, user-focused products.

EXPERIENCE

Web Application Developer (Frontend) <i>Arjava Technologies</i>	July 2024 – September 2026 <i>Remote, India</i>
- Built and shipped 5+ React web applications (HTML5, CSS3, Bootstrap, Tailwind CSS) serving 1,000+ daily active users with cross-browser compatibility. - Designed and integrated 10+ RESTful APIs (Express.js, Node.js) with input validation, error handling, and response caching – reduced average API latency by 30%. - Improved Lighthouse performance score by 20% via code splitting, lazy loading, image optimisation, and Webpack bundle analysis. - Managed Git branching workflows (feature branches, pull requests, code review) in Agile sprints; maintained 99% uptime across all deployments on Render and Cloudflare. - Wrote reusable React component libraries and documented APIs, reducing onboarding time for new developers by an estimated 40%.	

EDUCATION

Bharath University <i>Bachelor of Computer Applications (BCA) – Pursuing</i>	Chennai, India 2023 – 2026
Coursework: Data Structures & Algorithms, DBMS, Web Technologies, OOP, Software Engineering, Computer Networks.	
GTR Karkudi Higher Secondary School <i>HSC – Computer Science Stream</i>	The Nilgiris, Tamil Nadu 2021 – 2023
GRG School <i>SSLC</i>	The Nilgiris, Tamil Nadu 2011 – 2020

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Java, Kotlin, Python, SQL, HTML5, CSS3
Web Development	React.js, Tailwind CSS, Bootstrap, Shadcn UI, Responsive Design, REST API Integration
Backend & APIs	Node.js, Express.js, Python API, REST APIs
Databases	MySQL, MongoDB, Supabase, Firebase (Realtime DB & Firestore), SQLite
Mobile Development	Android (Kotlin), Android (Java), Flutter, Android Studio
Version Control	Git, GitHub, Branch management, Pull Requests, Code Review
Deployment & Hosting	GitHub Pages, Render, Cloudflare Pages, Firebase Hosting
Testing & Optimisation	Frontend Testing, Unit Testing, Code Optimisation, Lighthouse Audits, Webpack
Dev Tools	VS Code, Postman, Chrome DevTools, Android Studio
AI & Dev Tools	Claude AI, GitHub Copilot, Kiro, Opencode, Codex, Magic Patterns, Antigravity

PROFESSIONAL SKILLS

Collaboration	Cross-functional Teamwork, Agile / Scrum Workflows, Peer Code Review
Communication	Technical Documentation, Client Requirement Gathering, Async Remote Communication
Engineering Practices	Debugging, Root Cause Analysis, Iterative Delivery, Attention to Detail
Soft Skills	Problem Solving, Time Management, Adaptability, Leadership, Self-motivation

KEY PROJECTS

Web Applications

- **Kadaikutty** (*React, Express.js, Node.js, MySQL*) – Full-stack e-commerce application with user authentication, real-time cart management, and order processing. Implemented RESTful API architecture with MySQL relational schema. [\[GitHub\]](#)
- **Goddard School** (*React, TypeScript, Tailwind CSS, Cloudflare*) – Responsive school management web app tracking 200+ student enrollment records and form submissions. Deployed on Cloudflare Pages with CI via GitHub. [\[Live\]](#)
- **PGM Air Condenser** (*HTML5, CSS3, Bootstrap*) – Business website with structured data (JSON-LD), SEO meta tags, and fully responsive layout – improved organic discoverability for client.
- **Stack & Queue Visualiser** (*Vanilla JS, CSS Animations*) – Step-by-step LIFO/FIFO data structure visualisers; used as teaching aid for DSA concepts.
- **Connect Four** (*Vanilla JavaScript*) – Two-player in-browser game with win-detection algorithm (row, column, diagonal checks), animated game board, and score tracking – built entirely without any framework.

Android Application

- **Calculator App** (*Kotlin, Firebase, Android Studio*) – Production-quality Android calculator with 15+ arithmetic operations, history log, and real-time Firebase cloud sync across devices.

Algorithms & Problem Solving

- **LeetCode – 100+ Problems Solved** (*Java*) – Arrays, linked lists, binary trees, BFS/DFS graph traversal, dynamic programming, two-pointer, and sliding window – all with optimal time and space complexity.

ACHIEVEMENTS & AWARDS

- **1st Place – Web Design Competition**, Madras Christian College (MCC)
- **1st Place – Web Design Competition**, Agurchand Manmull Jain College
- Delivered 15+ production web and Android projects end-to-end since July 2024.
- Reduced API latency by 30% and improved Lighthouse score by 20% in production apps at Arjava Technologies.
- Maintained 99% uptime on applications handling 1,000+ concurrent users.
- Solved 100+ LeetCode problems with optimal complexity while pursuing full-time BCA.

CERTIFICATIONS

- React – The Complete Guide (Udemy / self-study, 2025)
- Hope3 Foundation – Full Stack Web Development Training Programme
- Android App Development with Kotlin (self-study, Android documentation)

LANGUAGES KNOWN

Tamil	Native
Kannada	Mother Tongue
English	Professional Working Proficiency

INTERESTS

- Competitive Programming – consistent LeetCode practice (arrays, DP, graphs)
- Open Source Development – exploring and contributing via GitHub
- AI-assisted Development – staying current with developer tooling trends
- Nature & Wildlife – raised near Masinagudi, Mudumalai wildlife corridor

DECLARATION

I hereby declare that all information furnished above is true and correct to the best of my knowledge and belief.
